#### Alumni sharing:

"This one year learning experience in Lingnan MAcc Programme let me have a deeper understanding of both local and international accounting practices. The knowledge I acquired from the Programme is very relevant not only to the professional accounting qualification examinations, but also to real work environments. However, leaning is only one part of my life in Lingnan. From time to time, the Programme organized workshops and seminars for us to improve employability skills, from personal image and self-packaging, CV writing, to job interview. My one year studies in Lingnan University have been a fulfilling and rewarding experience. I have dreamed of working in one of the leading international accounting firms ever since I enrolled into this Programme. Now my dream has come true!"
